Virulent Newcastle Disease (vND) in Chickens, Los Angeles and San Bernardino Counties

The California Department of Food and Agriculture (CDFA) has detected virulent Newcastle Disease (vND) in chickens in Los Angeles and San Bernardino Counties.

- CDFA and the U.S. Department of Agriculture (USDA) have scaled up their response to this incident, as more cases have been detected.
- CDFA confirmed that there are no commercial premises currently involved.
- CDFA confirmed that there is no public health risk due to this virus.
- 1 AmeriCorps San Diego and 1 San Bernardino County volunteer Spanish language interpreter responded to conduct surveillance (education/outreach), with two more arriving on 06/04/18.
- The USDA National Incident Management Team (IMT) arrived on 06/01/18 and are teamed up with CDFA personnel at the CDFA Ontario District Office. Each section is being briefed by CDFA personnel.

Activations

- San Bernardino Operational Area (OA) Emergency Operations Center (EOC) is activated to Level 3 (lowest level) and will continue to monitor the incident.

Deployments

- 1 Cal OES Southern Region Senior Emergency Services Coordinator (Sr. ESC) deployed to the CDFA/USDA ICP as an AREP with an operational period of 0700-1900 hours.
- 1 Cal OES Logistics Section Chief (Log Chief) deployed to the CDFA/USDA ICP with an operational period of 0700-1900 hours.

Logistics

Per the Cal OES Southern Region AREP on 06/02/18 at 0809 hours:

- Cal OES Southern Region along with Cal OES Logistics continue to assist CDFA in identifying a facility to expand operations in the immediate area of the CDFA district office in Ontario, San Bernardino County.
 - The Agency Representative coordinated with the County and city of Ontario for possible use of a facility at the Ontario International Airport. The information was forwarded to the Logistics Chief and ICP Incident Commanders.
 - One facility will be inspected on 06/02/18 as a potential location.
 - The negotiations continue.

WEATHER OF CONCERN

Weather of Concern

- Hot temperatures are expected through Monday.
 - An Excessive Heat Warning is in effect at 1100 hours today, through 2000 hours on Monday for portions of southeastern California.
 - A Heat Advisory has been issued for interior San Luis Obispo County today, as high temperatures will be around 20 degrees warmer than normal for this area including Paso Robles and Atascadero.

WEATHER SYNOPSIS BY REGION

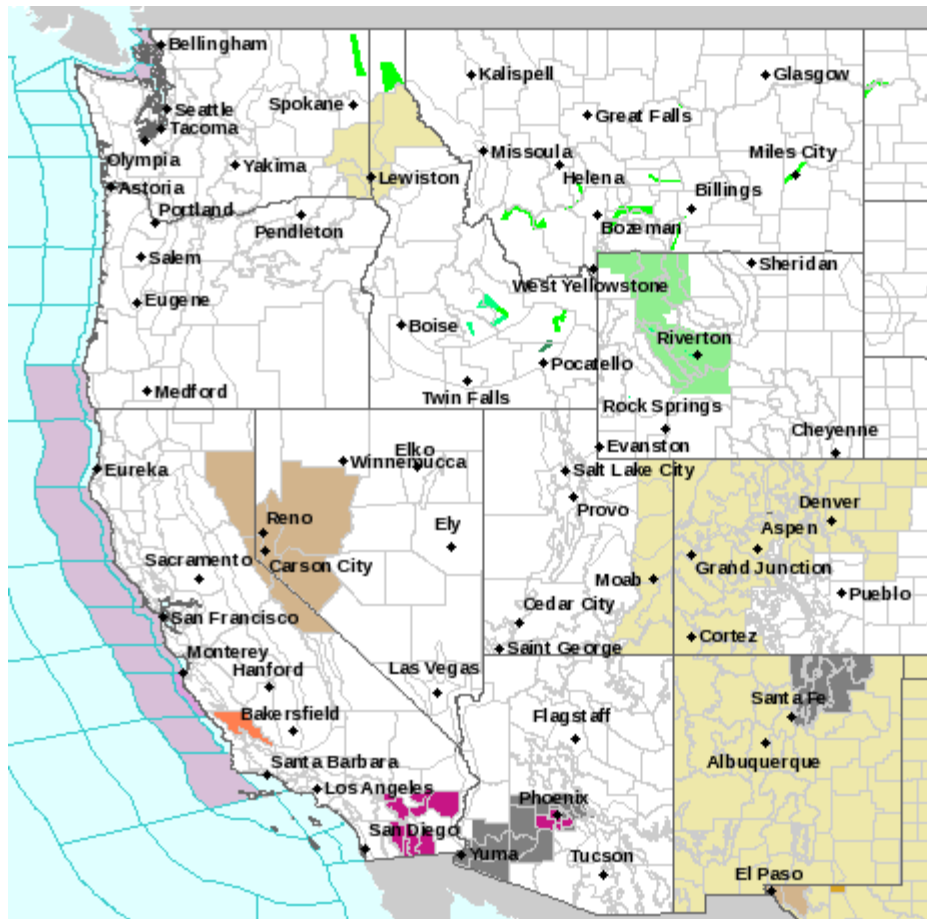

NORTHERN CALIFORNIA

Dry weather is forecast this week, with hot temperatures expected today. Dry weather will prevail for the next several days with much warmer than normal temperatures forecast for today and Monday. A modest cooling trend will occur by the middle of the week with temperatures lowering to near normal by Wednesday.

SOUTHERN CALIFORNIA

Nearby high pressure will continue to bring very warm weather through Monday, followed by cooling into midweek as a weak upper level low pressure area redevelops off the California coast. A shallow marine layer will keep some clouds and fog along the immediate coastal strip and then expand spreading inland Monday and Tuesday, allowing a return to seasonable weather the rest of the week. A Heat Advisory has been issued for interior San Luis Obispo County today, as high temperatures will be around 20 degrees warmer than normal for this area including Paso Robles and Atascadero. An Excessive Heat Warning is in effect for portions of southeast California, through Monday.
